SUMMARY

Product analyst who turns messy support data into decisions. Six years across fintech and health SaaS, comfortable in SQL and Python, and used

to talking to engineers, designers and the support floor in one afternoon.

EXPERIENCE

Senior Product Analyst, Northwind Financial Feb 2022 - Present

- Built the weekly retention dashboard the exec team runs standups from.
- Grew activation from 41% to 63% over three quarters.
- Cut the time to answer a pricing question from 9 days to 2.

- Managed a \$240k analytics tooling budget and merged four vendors.

Product Analyst, Northwind Financial Mar 2020 - Feb 2022

- Owned the support-deflection model, which reduced inbound tickets 18%.

- Partnered with two engineers to ship a self-serve refund flow.

Junior Data Analyst

Harbour Health Group Jul 2018 - Mar 2020

- Wrote the SQL behind the monthly patient wait-time report.

- Trained 14 clinic coordinators on the new reporting portal.
